POST CLOSURE CARE AT ORDOT CLOSURE FACILITY

Project No.: RECEIVERRFP001-19

December 28, 2018

ADDENDUM NO. 1

This addendum shall form part of the Contract Documents. Failure by any proposer to acknowledge receipt of this addendum in its proposal may be, as determined exclusively by the Receiver, grounds for disqualification of its proposal.

NOTICE TO BIDDERS: The Bid Documents of the above project are hereby amended as follows:

I. RESPONSES TO BIDDER'S QUESTIONS

Question No. 1: Potential proposer requests interpretation of the below RFP language relative to potential conflict of interests in the performance of work under the proposed scope.

Page 8 of the RFP states:

'B. Is not employed by, or subcontractor of, the entity responsible for the design, construction, construction management or operations of the Ordot Closure System; and'

Response: The condition provided in the RFP relative to Conflicts of Interest, as identified above, means that if the potential proposer did not perform any of the design, construction, or construction management as an employee, or subcontractor of the entity responsible for the design, construction, or construction management during the Closure, nor is a past, current or future employee or subcontractor to the entity responsible for the operations of the Ordot Closure System, then potential proposer does not have a conflict of interest relative to this RFP. Additionally, if the potential proposer is currently employed, or a subcontractor for other work, not associated with the services contemplated under this RFP, with the entity responsible for the design, construction, or construction management during the Closure, this is not considered a Conflict of Interest under this RFP. However, it is a conflict of interest for the potential proposer to be employed or subcontracted to the entity (Brown and Caldwell Constructors) providing the operations of the Ordot Closure System.
